possible for a town whose postal receipts are \$6000 or over, annually, to have a free delivery. The annual postal receipts of the Deming postoffice for the year 1911 were \$800, so that in case this bill passes, Deming will be definitely in the free delivery class. It is pointed out that Deming is well in line for this service, as the sidewalks are in excellent condition, there being now over seven miles of cement sidewalks in Deming. The houses in Deming are already numbered and the only remaining requirement is for all of the streets to be properly marked. Postmaster Edw. Pennington is taking this matter up with the city council tonight, and will also take it up with the chamber of commerce at the next regular meeting of the board of directors, to the end that the endorsement of the bill may be forwarded to congressment Curry and Fergusson.

more than 'arrested.' Something more is needed.

Eckman's Alterative is a medicine made for the cure of Tuberculosis. It has cured this disease again and again. Often these cures have been effected where the surroundings were not ideal, where no intelligent care was taken of the patient, where money was scarce; good food and good cooking unusual—yet cures resulted. Now we arread and urge that Eckman's Alterative should be used in every case of Tuberculoris, in addition to good, nourishing food and fresh air, which we all need.

The facts—the evidence of cures that have been made—are interesting reading. A remarkable case follows—Welsien, III.

DEMING AND MIMBRES VALLEY

Deming, N. M., Feb. 6.-Dr. J. F. Galloway, of El Paso, was in Deming seeing after the development of his land in this valley. Dr. Galloway was unable to conclude a contract for an irrigation well on his property for the reason that all 10 of the well-drilling firms in the valley are busy with contracts ahead. However, he expects to have a well put down before spring. He let a contract for a six-room adobe house on his land, which will be started as soon as it gets warm enough to make the adobes. Dr. Galloway says that he likes Deming and the Mimbres valley better every time he sees it. It has been two months since he was here before and he declares that evidences of remarkable progress are everywhere evident. While here he received plats from Aimy & Morgan surveyors, covering the quarter sections in township 24, range 11 and 24 range 12, showing the corners of all these quarter sections and also the high points for location of urigation wells. Dr. Galloway left Monday for El Paso.

time to get a charge of BB shot in the
chest, face, head and through his lat.
One shot struck in the right chest, probably penetrating the right lung, another
struck near the top of the forehead, and
one or two in the cheek, and several
went through his hat.
A physician was summoned and is still
in attendance. It is impossible at this
time to state how serious the case may
be, but it is thought the boy will recover. Eddie is the son of Mr. and Mrs.
